

MEMO

To: Foxdale Village Visitors and Residents

From: Meg Clouser, Director of Health Services

Subject: Health Center Visitation Update

Date: April 4, 2022

There are no specific health care visiting hours and residents will be allowed to have visitors at any time.

All individuals, including independent living residents, will be required to stop at the check-in kiosk in the lobby of the Community Center prior to entering the health center. The kiosk will ask questions to screen for COVID-19 symptoms and exposures for all individuals. Visitors will be issued a visitor badge from the kiosk.

Below are some additional protocols we will be adhering to with continued efforts to mitigate the risks of COVID-19:

- **Visitation within health care neighborhoods must continue in resident rooms at this time.**
- There are no age restrictions for visitors who come to visit in resident rooms at this time.
- Visitation in rooms should continue to be limited to 2-3 guests at a time to help maintain six-foot social distancing.
- If resident and all visitors are up-to-date with their recommended COVID-19 doses, they may choose to remove masks while in the resident's room.
 - If other residents or staff are present, visitors should wear a mask regardless of vaccination status.
- Residents may choose to have physical contact with their visitors.
- For residents that may be on quarantine, or should the facility be responding to a new COVID-19 case, visitors will be notified as necessary. While best practice would be to not visit, visitors may choose to continue to visit.

- Visitors and staff arriving after hours will need to complete signing in and screening at the check-in kiosk in the lobby of the Community Center. Please follow posted signage and directions.
- Foxdale continues to encourage everyone to get vaccinated. If you are interested, please let Meg Clouser or our Medical Home staff know and we will assist you in getting vaccinated.
- Visitors with COVID-19 symptoms, regardless of vaccination status will not be allowed to visit. Unvaccinated visitors or visitors who are not up-to-date on their vaccination status that have had close contact with someone with COVID-19 should refrain from visiting for ten days. Vaccinated visitors should notify Foxdale staff if they have been in close contact with someone who is diagnosed with COVID-19.
- Residents may eat with visitors in the Café area located in the Community Center.
- Outdoor visitation is encouraged for all unvaccinated visitors as weather permits.
- Visitors are welcome to take healthcare residents into the Community Center as an alternative to visiting in a resident's room or outdoors.

Questions and Thank You!

If you have questions about these updates and protocols, please contact
